SOLUTIONS TO TRANSFORM LIVES™

Solutions to Transform Lives.

*You deserve more. More time, more health, more security,
more success, more purpose. Isagenix® offers you more
solutions and more opportunity to live the life you want.
Welcome to the new you. Your horizon just got brighter.*

Dear Reader,

Welcome to Isagenix®! We are so proud to partner with you on your journey to achieving your biggest goals and dreams. Isagenix has solutions to transform lives: Whether you've discovered us because you want to get healthy and manage your weight; find out how you can improve your energy and athletic performance; feel the difference with healthy aging at its finest or experience the empowering effects of residual income with our generous compensation plan, you've come to the right place.

One reason for our success over the past 10 years is that our solutions products and compensation plan deliver unbeatable (and unmatched!) results. Thousands of pounds lost. More than 78 Isagenix Millionaires created. Mothers and fathers playing with their children again because they've rediscovered their energy. Baby Boomer grandparents tackling unbelievable athletic feats.

There is no limit to what you can do with Isagenix. This is the first step to transforming your life in whatever way you envision. Thank you for choosing Isagenix—we are honored to support you!

Isagenix Science

In keeping with the original vision of Isagenix Founder and Master Formulator John W. Anderson, Isagenix Product Development includes multiple layers of scientific testing and an unwavering attention to detail to create our no-compromise products. The entire process requires constant collaboration across a number of scientific disciplines and a unified commitment to quality.

Every Isagenix product formulation is extensively researched and tested—in all phases of development and manufacturing—to ensure its quality, safety and efficacy.

QRTS

Our world-class Quality, Regulatory, Technology and Science Department (QRTS) encompasses Global Product Development; Research and Science; International Regulatory; and Quality Assurance and Control.

Under the leadership of Suk Cho, Ph.D., Isagenix boasts 25+ full-time scientists. In addition, QRTS works in concert with scientists and experts at reputable test laboratories and universities to conduct rigorous research, product purity and efficacy testing.

PRODUCT INNOVATION

Creating exceptional nutritional products that make a positive difference in millions of people's lives is a very complex process. Master Formulator John W. Anderson and our Research and Development Team actively nurture collaborative relationships with experts from diverse disciplines to stay abreast of ever-evolving nutritional science. They are constantly consulting academic experts and medical professionals to create no-compromise products with the utmost of efficacy.

RESEARCH AND SCIENCE TEAM (R&S)

Generating products backed by up-to-date research, R&S takes an evidence-based approach to product development and nutritional recommendations. Our scientists perform evidence-based research to substantiate product claims and ensure the safety and quality of Isagenix nutritional supplements.

QUALITY ASSURANCE AND CONTROL TEAM

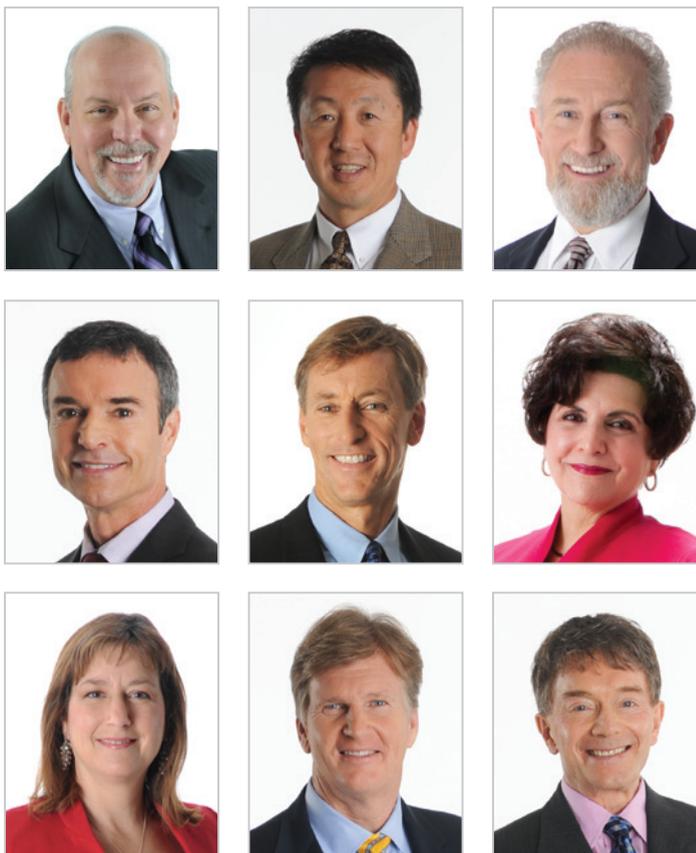

When each product is ready for launch, our Quality Assurance and Control Team aligns with manufacturing to ensure that all operations are in accordance with Food and Drug Administration guidelines.

INTERNATIONAL REGULATORY

Isagenix is rapidly expanding, as are the responsibilities of the Regulatory Team. With markets in Taiwan, New Zealand, Australia, Hong Kong and North America—the International Regulatory Team oversees the documentation and distribution of products all over the world.

Scientific Advisory Board (SAB).

Isagenix has attracted the best and brightest professionals in the fields of nutrition, medicine and health and wellness to serve on our SAB. Collectively, they represent their respective fields and the Isagenix commitment to excellence to guide people safely along the path to youthful aging, optimal health and wellness.

Here's what's new at Isagenix.

e+ A Healthy Energy Shot *page 78*

Are you ready for a natural energy boost to increase focus, and energize the mind and body? e+ keeps you active and alert, and enhances athletic performance. Unique in its formulation, e+ contains natural caffeine derived from green tea and yerba maté along with a proprietary, scientifically proven herbal blend that increases energy, stamina and mental alertness.*

Natural Vanilla IsaLean Pro *page 57*

You asked, and we listened! **Natural Vanilla IsaLean® Pro** is back and better than ever. Available in 14 convenient single-serving packets, you can now enjoy a megadose of the highest quality of undenatured whey protein in Natural Chocolate, French Vanilla, or Natural Vanilla! So what's the difference? Only the flavor! Enjoy the cinnamon-tinged flavor of French Vanilla or savor the sweetness of Natural Vanilla; either way, you're enjoying the best, power-packed shake on the planet.

IsaLean Bar Yogurt Dipped Natural Oatmeal Raisin *page 59*

Say "hello" to the newest member of the IsaLean® Bar family! The new Yogurt Dipped **Natural Oatmeal Raisin IsaLean Bar** is a tasty, low-glycemic meal alternative that helps support weight management by curbing hunger and helping to keep you satisfied longer. And, did we mention that this delicious bar has a delectable, sweet yogurt coating and a yummy spice-cake flavor inside? Taste buds, get ready!

Ionix Supreme 32oz liquid and single-serve packets *page 79*

Ionix® Supreme is an essential part of your healthy-living arsenal, key for battling the lethal effects of toxicity and stress. Now super-charged in a plentiful, 32-ounce bottle of liquid and convenient on-the-go packets, the increased bioactives in this powerful adaptogenic elixir provide a higher concentration of botanicals and nutrients that help you manage stress and challenge the effects of heightened levels of toxicity. Also featuring a refreshing new, fruity flavor, just an ounce a day can transform your life.

Green isn't just our corporate color, it's our environmental imperative.

Isagenix has always embraced the importance of recycling, but we recently redoubled our efforts to make recycling the highest priority by implementing sustainable packaging practices. Isagenix plastic IsaLean Shake containers are now completely biodegradable and *Cheerful Planet Certified*. Our plastic shake canisters contain our proprietary, completely safe and non-toxic resin additive that helps them break down more quickly when introduced to a microbe-rich environment—such as a landfill or compost pile. Please recycle. But when you can't recycle, rest assured that Isagenix has your back.

ISAGENIX
100
pound club

Just over a year ago, Laurie Kelley was barely able to walk from her car to the house. Unable to exercise because of a debilitating health condition, Laurie started to gain weight and became very depressed. “I was miserable most of the time. To be honest, if I didn’t have a great family I wouldn’t have cared if I woke up or not. It was very overwhelming.”

Today, Laurie is 133 pounds lighter and happily walking everywhere. “Everything is a milestone. Fitting into an airplane seat; you can imagine how that felt.” The 55-year-old did it by using the Isagenix 30-Day Cleansing and Fat Burning System. “I just stick with the 30-Day System. I’ll probably be on it for the rest of my life. I feel so much better when I don’t stray from the system.” Laurie’s no longer “eating all the wrong foods,” and now sticks to meals of lean protein and vegetables. Along with walking, she has added weightlifting and plans to step it up even more after her knee heals from surgery.

“My plan for the next six months is to drop another 40 pounds, but I’ll let my body go where it goes. With the Isagenix system, it will go where it needs to be and stay there.”

Start your weight loss journey with the 30-Day Cleansing and Fat Burning System (next page).

Lisa Wolny's incredible physique is proof that you can get your body back after four kids. Once out of shape and depressed, Lisa is now enjoying her new life as a professional fitness competitor and successful Isagenix® Associate. How did she do it?

Exercise was a major factor, but more importantly, it was about understanding nutrition. "People work out and never see a change because they can't get a handle on nutrition," shares Lisa. This mother of four transformed her body with the help of the 30-Day Cleansing and Fat Burning System and keeps it maintained with the superior protein in IsaLean® Pro, IsaLean® Shake and IsaPro®.

After a demanding workout she always turns to this energizing recovery mix: a scoop and a half of IsaPro, a scoop of IsaLean Shake, one scoop of *Isagenix Greens!™*, and half a scoop of IsaFruits®. "You're restoring glycogen levels by having carbs post-workout and also getting additional protein to get you up to a full 35 grams. Plus, it's just satisfying and delicious."

How I Got My Youthful Vibrancy Back

Marina Bakker-Ayers relies on Cleanse for Life. “It’s the greatest. I always have four extra bottles on hand so I don’t run out. I also make individual servings of the IsaLean Shake, Ionix Supreme and Isagenix Greens! all mixed together in a little baggie so I can shake and drink as I go. For treats, I indulge in IsaLean Bars and IsaDelight Plus chocolates.”

Healthy Aging

Healthy Aging Solutions

Healthy aging and improved vitality are now within reach. Our Healthy aging solutions help you fight the effects of aging by combining latest advances in nutritional cleansing and meal replacements in conjunction with patented youthful-aging support.

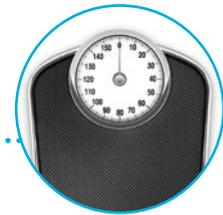

How to Live Life to the Fullest

Oxidative stress has been linked to telomere shortening and premature aging. Here's what you can do to combat oxidative stress:

Exercise regularly

Maintain a healthy weight

Eat more nutrient-dense, reduced-calorie foods

Meet daily requirements for vitamins and minerals (especially antioxidant vitamins E and C, B vitamins like B12 and vitamin D3).

See page 47.

Consume sufficient amounts of long-chain omega-3 fatty acids (DHA and EPA).

See page 71.

Limit exposure to environmental toxins, especially smoking and excessive drinking

Supplement with specific bioactives that guard against oxidative stress or promote the efficient activity of antioxidant enzymes (CoQ10, green tea, milk thistle and resveratrol).

See page 47.

Reduce or manage stress through exercise and meditation

Practice healthy sleep habits

Encourage greater health and youthful aging through nutritional cleansing and replenishing, which helps rid the body of toxins while nourishing it with vitamins, minerals and antioxidants. Discover the benefits of Isagenix Cleanse and Shake Days.

See page 17.

Consume a high-quality protein (such as whey) containing a superior amino acid profile for muscle maintenance and fat burning.

See pages 54, 57, 81.

The Isagenix Brain and Sleep Support System™

The proven power of vigorous brain-boosting nutrients combined with a powerful melatonin and nutrient complex spray make the Isagenix® Brain and Sleep Support System™ an ideal way to achieve restful sleep while supporting healthy brain function. Designed as part of your whole-body, cellular replenishing and youthful aging lifestyle, this system works best when used with Cleanse for Life®, IsaLean® and IsaLean Pro® Shakes and Ageless Essentials™ with Product B™.

Brain Boost & Renewal™ is a proprietary formula containing curcumin, piperine, L-carnosine and a host of brain-friendly nutrients to promote mental focus, concentration, decision making and memory. Taken daily, Brain Boost

& Renewal improves your ability to learn new information while providing dietary support for memory and overall brain health and function.

Sleep Support & Renewal™ is nightly nutrition for your brain in an all-natural, fast-acting spray. This triple-action formula has melatonin, L-theanine and a proprietary blend of natural herbs and ingredients. This blend of high-quality standardized extracts is designed to promote normal sleep cycles. The ingredients work synergistically to reduce the time it takes to fall asleep while helping to improve the quality of sleep and increase total sleep time.

Sleep Support & Renewal™

As we age our natural melatonin levels drop. Sleep Support & Renewal when taken nightly helps replenish lost melatonin. Poor sleep quality is associated with health problems like binge eating, weight gain, cognitive decline, impaired memory and cognition, and shorter telomeres. The benefits of improved sleep quality include better focus, memory and alertness. Ideal for all adults looking to improve overall sleep quality safely.

A Big Leap In the Fight Against Aging

Pictured left to right: John W. Anderson, Isagenix Founder, Master Formulator and Product B Formula Developer and William Andrews, Ph.D.

When Product B™ Antioxidants plus Telomere Support was introduced in 2011 it was Isagenix's first venture into the newfound source of aging: telomeres. Since the introduction of Product B, Isagenix Founder, Master Formulator and Product B Formula Developer John W. Anderson and William Andrews, Ph.D. of Sierra Sciences have continued to test new ingredients for their role in telomere support. Their

collaboration has given us the next generation of Product B which features ingredients that have astounded the vetting team at Sierra Sciences.

It's never too late to feel young again.

Thousands of people all over the world have already begun to feel and show the benefits of taking Product B—increased energy, improved fitness and a general feeling of vitality and vigor.

Living longer never felt better.

What Makes IsaLean Shake Different

IsaLean Shake is powered by Myo-IsaLean Complex, an undenatured protein blend sourced exclusively from grass-fed dairy cows raised on the pristine pastures of New Zealand. Minimally processed and the purest you can find, our proprietary, cheerful cow certified, protein blend features:

- A higher whey-to-milk-protein ratio comparable to the nutritional value of human breast milk and clinically shown to help you stay fuller longer, support muscle growth and maintenance and healthy blood sugar levels
- A milk protein concentrate vs. calcium caseinate as a source of protein, which increases the concentration of branched-chain amino acids to fuel muscle growth and create lean body mass
- Increased amounts of lactase make it easy to digest

"I put on a few unwanted fat pounds after an injury that kept me from exercising, so I added IsaLean Pro to my IsaLean[®] Shake on a regular basis. I was down that extra 12 pounds in no time."

My Routine

IsaLean[®] Bar for breakfast along with Ageless Essentials[™] with Product B[™]. My mid-morning snack is an IsaDelight Plus[™] chocolate. Lunch is IsaLean Shake with a scoop of IsaLean Pro. A couple of *Isagenix Snacks!*[™] and an ounce of Ionix[®] Supreme mid-afternoon. And for dinner I have a light, healthy meal with my family unless it's a Cleanse Day.

4 Reasons to Cleanse

by David Despain, M.Sc

As the Senior Manager of Science Communications for Isagenix Research and Science, David oversees the scientific accuracy of Isagenix communications materials and educational marketing.

“Jump-Starts” Fat Burning

The reduction of calories on Cleanse Days stimulates the body’s fat burning furnaces by increasing human growth hormone while suppressing proteins responsible for fat synthesis and storage.

Improves Insulin Sensitivity

A review of animal and human studies involving abstaining from food for one or two days in between normal days, found that fasting resets cellular sensitivity to glucose and insulin. This in itself can bring better health—allowing the body to better control blood sugar. The opposite of being insulin sensitive is insulin resistant, which is related to metabolic syndrome, type 2 diabetes and cardiovascular disease. Recently, research has shown that periodic intermittent fasting was associated with reduced risk in type 2 diabetes and cardiovascular diseases.

Triggers Detoxification

The abstinence of food on Cleanse Days gives the digestion processes a break, allowing the liver to kick into detox high gear. Also, with the reduction of fat deposits on Cleanse Days comes the release of stored fat-soluble toxins. Drinking Cleanse for Life on Cleanse Days helps encourage even deeper detoxification (see next page).

Reduces Oxidative Stress and Inflammation

As fat cells shrink, they release fewer pro-inflammatory cytokines (signaling molecules) that cause oxidative stress. Less total body fat also helps improve antioxidant status in the body. The end result is improved health overall. Oxidative stress, in particular, plays a heavy toll on telomeres (related to aging). The lower the oxidative stress, the better for healthy aging.

Why Undenatured Whey Protein is Superior

Whey Leads to 25% More Muscle Growth After Exercise & 20% More Growth at Rest Compared to Soy

Whey protein stimulates more muscle growth than soy. As the graph depicts, at rest, whey protein stimulates almost 20% more muscle growth than soy and after exercise, whey stimulates 25% more muscle growth than soy. Tang et al. *J. Apply Physiol.* 107, 2009

Whey Protein Boosts Fat Burning Better Than Soy

Whey protein has been proven to consistently deliver the best results for fat oxidation (aka "fat burning"). Acheson et al. 2011.

Pure and Natural: Whey is extracted from milk by numerous methods, the most common is by using acids or salts and heat, which denatures the whey. Denaturing breaks down the protein and strips the whey of its natural, high-quality benefits. It also destroys bioactive compounds that have multiple benefits for humans.

Key Amino Acid Profile: Undenatured whey contains numerous amino acid pairs and amino acid triples that fit specific genetic locks in the body to turn on protein functions. Studies show undenatured whey also supports production of glutathione, a key antioxidant for battling oxidative stress and guarding telomere health.

Better Than Soy: There are a number of meal replacement shakes out there with soy protein. Research shows that whey protein surpasses the results of soy-based shakes (see graph) for fat burning and muscle retention and growth. Whey protein increases your ability to stay full longer and stimulates the production of heat in the human body so you can burn more calories.

Benefits of Isagenix Whey Protein

Isagenix whey protein is sourced from New Zealand where standards exceed USDA organic and is put through an ultrafiltration process that keeps the whey intact (undenatured). Our superior amino acid profile, with a high concentration of branched-chain amino acids, supports lean muscle growth.

Supplementing your regular workouts and weight-resistance training with Isagenix protein throughout the day will help you:

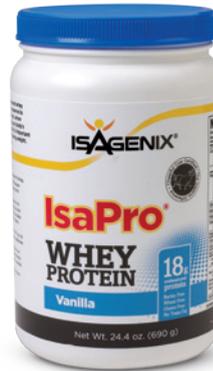

- Spur muscle growth to the max
- Slow muscle breakdown
- Enhance feeling of fullness
- Boost metabolism and fat burning

Superior whey protein can be found in *IsaLean® Shake* (page 54), *IsaLean® Pro* (page 57) and *IsaPro®* (next page).

4 Lifestyle Choices for Healthy Skin

by Marilyn Territo, C.E., C.M.

Safe sun practices. Minimizing sun exposure and using a broad-spectrum sunscreen to protect your skin when exposed to the sun's UV rays are important to your skin's health. Cumulative sun exposure is a major contributor to skin damage and premature aging of the skin.

Drink plenty of pure water every day. The skin is approximately 50 to 75 percent moisture so it needs to stay hydrated.

Maintain a regular exercise program. The skin is an eliminative organ and releases approximately one pint of impurities each day by sweating. Sweat also helps cool down the temperature on the surface of the skin. Good circulation also delivers vital nutrients to the skin for self-repair and regeneration.

Get plenty of rest, relaxation and sleep. During sleep, the entire body restores and regenerates itself and the skin does its natural self-repair and rejuvenation processes.

Enhance your healthy skincare lifestyle with our Personal Care Solutions.

Turn back the clock to a more youthful you.
